

**Teacher Instructions:**

1. Using a projector, project the image of the tree onto a large sheet of paper and trace it.
2. Mount the tree onto a bulletin board or cut it out and tape it to the classroom wall.
3. Using the Leaf Template (next page), print leaves for your students. Have students write their kind acts on the leaves and add them to the tree.

Alternative: Instead of a tree, create a vine with yarn or twine and string *Kindness Leaves* around the classroom.
