Instructions: Create your own crossword puzzle!

## First, make the answer key:

1. Choose 10 words and create clues for each word.
2. Use common letters to connect words and write them on the crossword puzzle grid.
3. Assign and label a number and direction for each clue based on the location of the word on the grid. *For example: 1 Down or 4 Across.*
4. Write the assigned numbers in the box that contains the first letter of every word on the grid, making sure they match the clues.
5. Colour in all the squares that are **not** being used by the words.

## Next, make a copy for a partner:

1. Copy your puzzle onto a new grid without writing the letters/words.
2. See if your partner can solve the puzzle using the clues!
